Termination of this Agreement shall not affect the accrued rights or obligations of the parties existing at termination. If the reason for a Player requesting the closing of their account is that Player's gambling addiction, the Player must notify the Company together with their request for closing their Personal Account. ## **E. RESPONSIBLE GAMBLING AND MINOR PROTECTION**

1. Upon opening of a Personal Account and any time thereafter, a Player may refer to the various responsible gaming tools provided by the Company. Limits to deposits, losses, and wager limits may be set on a daily, weekly, or monthly basis in a section of Responsible Gambling on the Website. The Client can apply for a session duration, definite self-exclusion or reality check mode or utilise short break feature using the tools on the Website. In order to apply for an indefinite self-exclusion, it is required that the Player uses self-exclusion tools on the Website. For further information and assistance Players are encouraged to visit the [Responsible Gambling site](#).
2. The self-exclusion facility prevents Players from gambling and can be initiated by Players for selected short or long time frames. For short breaks, the self-exclusion can last from one to thirty days, and the break will be automatically lifted. For long breaks, the self-exclusion can last: 6 months, 1 year, 3 years, 5 years. When the chosen time lapses, the self-excluded Player must contact the customer support to initiate the reactivation process. When you return for definite self-exclusions, you may decide to renew your self-exclusion for a further period, which can be done by sending such a request to the customer support. Alternatively, Players may also apply for an indefinite self-exclusion. In this case, an indefinitely self-excluded Player may request to have the exclusion removed after a minimum period of 6 months has elapsed. The Company further advises the Players to visit the Responsible Gambling site to understand the implications of self-exclusion. Additionally, the Company recommends that the Players remove all applications related to the Company's Website from the Players' devices. In the aforementioned circumstances, the Company has the right to refuse re-opening the Personal Account on the Website without providing any justification. The self-exclusion related to gambling issues will apply to linked customer accounts on all the brands operated by the Company.
3. If the Client wants to restrict their gambling for a specific limited time period, the Client must use the Responsible Gambling tools. To request restriction of access to your Personal Account you must use the Short break self-exclusion tool. The period of Short break is from 1 (one) day to 30 (thirty) days. Once the Personal Account has been restricted, the Client shall not be able to reactivate their Personal Account under any circumstances until the expiry of the chosen period. Once the exclusion period has lapsed, the account reopens automatically.
4. The Client can set the game session duration limit in the 'My Account' section of the Website. They can choose the duration of the session set in minutes. The time window needs to be entirely manually set to provide a wide range of time options and engage the Clients to make their own informed choices. The time set applies to a single day (24-hours). Similarly to financial limits, the Clients can decrease game session duration time at any moment, and it will be with immediate effect. The increase requires additional 24-hour cooling-off time allowing the Clients to reconsider their decision.
5. Refunds of unused balance are subject to the rules set out in section H of the Agreement. Transactions made before the self-exclusion will be considered valid for the Event to which transactions have been placed. All attempts to open a Personal Account after or during the self-exclusion period will be rejected, and deposit and current Bets will be tied up.
6. Anyone can self-exclude themselves by submitting a request to the National Gambling Exclusion Register administered by the GRAI. If a Client registers with the National Gambling Exclusion Register, the Company will block access to the Personal Account, preventing the Client from logging in and using the Company's services. Any positive balance available on the Client's Personal Account will be returned to the Client's payment method within a seven (7) day period. If a person who is registered with the National Gambling Exclusion Register tries to open a Personal Account with the Company, the Company will prevent the person from registering a Personal Account.
7. Additional resources are available for Clients who wish to gamble responsibly or prevent compulsive gambling. These resources can be found [here](#) and [here](#).
8. Once the account is re-opened in accordance with the procedure described herein, Client shall be responsible for any losses that ensue thereafter as a result of the continued use of the account and shall in no case be refunded by the Company.
9. Clients may utilise wagering limits which are available on the [Responsible Gambling site](#). Wagering limits allow the Clients to limit the amount of money that can be wagered on a specific gambling activity or in total. Once the wagering limit is activated, the selected limit will be applied immediately, and you will be unable to increase, decrease or remove your limit until the expiry of the time period you selected.
10. Company retains all records relating to Players' requests for exclusion and their consequent exclusion for the duration of the self-exclusion period plus a further period of at least six (6) months from expiry of the self-exclusion period.

Payments by other means will not be deemed to have been properly made. The Client is liable for all losses and damages arising out of such failure.
6. For payments onto the Player's Personal Account, a minimum that depends on the payment system applies. Please refer to the payment page in order to find out what minimum deposits apply to your payment system. 2. Please note that all deposits and pay-outs may be subject to a processing fee of up to 5% to cover any transaction expenses incurred.
3. The Player will not be reimbursed in arrears for any differences between the amount credited and the amount debited from their card resulting from exchange rate fluctuations and bank charges by the bank issuing the card. Details on recovered charges can be accessed at the Transaction history section. For our casino offering pay-out ratios apply. In order to review specific pay-out ratios per game Players may refer to the "Help/FAQ" menu (section payout/payout ratio casino) or to the return to Player rates (RTP) listed by the provider within the individual game frame. The term pay-out ratio or RTP refers to the relationship between stakes and winnings. It is based on settings of the random number generator and will be achieved on a long-term and average basis. Generally, the pay-out ratio of casino games offered by the Company exceeds 95%. In any case, the Company reserves the unlimited right to apply certain restrictions to the payment methods and/or to certain Players at its sole discretion. The minimum RTP for a bingo game is 70%. 4. In case any refund is required to be made by the Company, it will only be made to the same account or using the same means of payment the funds were deposited with only in case the refund is required due to breach of the Agreement by the Company. In case that is not possible due to the limitations of the payment provider, the Company will notify the Player of this, and propose alternative means of issuing the refund. In case an alternative method is utilised, the Player will have to go through additional KYC process before the refund can be issued.

5. The Company has the exclusive and unfettered right to rule that withdrawals may be made only by bank transfer in order to validate the identity of the Player.
6. The time for the withdrawal to be finalised may vary due to the circumstances but a withdrawal attempt should be approved or denied within 5 business days. A Player shall be informed about reasons for any delay if the time for the money to arrive at the Players account exceeds ten (10) business days.
7. Generally, all deposited funds must be wagered at least once (x1) before a withdrawal can be processed. This requirement is a security measure implemented in accordance with our AML and CTF obligations. The Company reserves the right to apply an administrative fee of up to 10% to cover transaction costs if a withdrawal of unplayed funds is requested and approved in exceptional circumstances. For the purposes of meeting this requirement, the Company excludes 'Low Risk' or 'Opposite' betting patterns, such as placing wagers on all or nearly all possible outcomes of a single event, or employing wagering strategies in casino games designed to cover a substantial majority of the available betting options to achieve a high probability of return with minimal risk to the principal stake, and reserves the right to either decline the withdrawal request until the mandatory turnover is completed or to deduct a reasonable administrative fee of up to 10%, reflecting the actual transaction and processing costs incurred by the Company, if the withdrawal of unplayed funds is approved in exceptional circumstances.
8. Funds or balances on a Personal Account of one Player cannot be transferred to a Personal Account of another Player.
9. If the Player incurs any extra costs in the course of the payment transaction, (e.g. upon paying out, paying in, payment of processing fees), higher transaction costs in the case of foreign bank transfers, etc., Company is entitled to charge the Player's Personal Account with these additional costs. Likewise, costs arising from returned transactions for which the Player is responsible (e.g. due to a wrongly stated account number, insufficient credit on the account, etc.) must be reimbursed by the holder of the account.
10. The Company applies withdrawal limits on pay-outs depending on the payment method chosen by the Player. To view the limit that is applicable to the Player, the Player should refer to the 'Limits and fees' section of the Website, which can be accessed from the footer of the Website. The 'Limits and fees' section of the Website is an instrument that plays an essential role in the Agreement. The limits are subject to change at any point in time. The Company does not control the limits directly, but instead follows the regulations established by the payment service providers that provide services to the Company.
11. If an Account Holder wishes to withdraw funds they have deposited into their Personal Account before having wagered the funds in any casino or sports betting offer, the Company reserves the right to refuse the Account Holder to withdraw the deposited funds until such time as the entirety of the funds have first been wagered or to offer the Account Holder to allow a withdrawal in accordance with Clause I.7.
12. The funds will be withdrawn from the Personal Account up to five (5) business days after the Company receives the Client's request, provided the following terms are met:

If Company mistakenly deposits funds into a Player's Personal Account, including any winnings that do not belong to that Player, whether due to a technical or human error or otherwise, that amount will be considered to be the property of Company and will be transferred out of your Personal Account as soon as possible after Company becomes aware of the erroneous payment. If prior to Company becoming aware of the error a Player has withdrawn funds that do not belong to the Player, without prejudice to other remedies and actions that may be available at law, the mistakenly paid amount will constitute a debt owed by the Player to Company. In the event of an incorrect crediting, the Player is obliged to notify the Company immediately by email.

### 2. General Betting Rules

- 2.1. Every Match in the sports world is characterised by numerous things taking place during the course of the Event. Based on its experience and analysis of the Clients' preferences, the Company selects the most significant of the Events that attract the greatest interest.
- 2.2. All Events so selected are further classified with forming Lines and assigning a certain Coefficient to each Event in the Line.
- 2.3. The Company's Clients can use their knowledge and experience in sport to determine the probability of Match Events being of the most interest to them by making Transactions for these Events.
- 2.4. The posted dates and times of fixtures are purely informational. The Company cannot guarantee accuracy. An incorrectly posted date and/or time is not grounds for voiding bets.
- 2.5. Misspellings, typographical errors, teams changing names, and incorrect leagues are not grounds for bets to be void, as long as it is clear based on the context what the intended fixture was.
- 2.6. Bets for the Events listed on the Website may be accepted before the beginning and during the Match, depending on the type of Bet and Event. The date and time of the Match, as well as other information about the Match published on the Company Website are provided for reference only. Resolving the Bets is based on the actual beginning time of Matches and Events determined based on the information from official sources and/or other sources of sports information.
- 2.7. A Bet with a positive result is a Bet where the Client's assumptions as to the probability of all its Events are right.
- 2.8. The financial resolving of Bets shall be based on the governing body decision or TV broadcasting and Press Association statistics if no decision is made, except where there is evidence of incorrect statistical data.
- 2.9. The Bet amount shall be written off the Personal Account after the Bet is registered. If Bets are calculated with a positive result, it shall be entered on the Personal Account.
- 2.10. In a pre-match (where Bets are accepted before the Match starts), the Company may change the terms, cancel, or suspend accepting Bets until the announced beginning of the Match.

Any correspondence issued by the Company at a later point in time, (e.g. notices, account information, etc.) will not have any effect whatsoever on the previous conclusion of the contract and its legal effect at the registered address of the Company.
- 2.15. The result of a fixture will be the final determination by the fixture's governing body on the date of the fixture's completion. The Company does not recognise protested or overturned decisions. The result of bets on a fixture suspended after the start of competition will be decided according to the betting rules specified for that sport. If nothing is specified in the sport's rules, then General Betting Rules apply.
- 2.16. If there is an obvious error in the odds or limit of a market, bets on that market may be void. If for any reason a bet is accepted after a fixture has begun (other than clearly indicated Live In-Play betting) bets will have action unless a material advantage has been gained. The Company reserves the right to void the bet if it determines that an advantage has been gained.
- 2.17. All bets will be accepted or rejected purely at the Company's discretion. In-Play bets may be subject to a short delay before they are accepted and/or they will be kept pending during dangerous situations at the Company's discretion.

A game can be joined at any time – as long as it's within the pre-season.

### 2. Season information

- 2.1. A season consists of 30 rounds / match days. The season is divided into three phases: „Pre-league“, „Match day loop“ and „Post-League“. „Pre-League“ runs before the start of a season and lasts about 2.30 minutes. The individual rounds are summarised in the „Match day loop“ phase. The match-time is 4:35 minutes per individual game. After the season has finished, there is a 60-second „Post-League“ phase.
- 2.2. Betting on a game within the Virtual Football League is possible at any time – as long as it's within the pre-season.
- 2.3. If you prefer, you can also bet on the games for the following day. Simply select the day you want from the „Matchday“ bar at the bottom and the games related to that day along with the odds will be displayed.

### 3. Match day

- 3.1. One match day / round lasts for 4:35 minutes, with the actual playing time being 3:00 minutes.
- 3.2. The match-day is divided into 60 seconds of „Pre-match“, followed by 1st and 2nd half – both at 90 seconds each, a 10-seconds long half-time break and finally a „Post-match“ phase before it automatically moves on to the next round.
- 3.3. Betting on the current match-day can be done up until 10 seconds before kick-off. However, the betting markets for any future rounds will still remain open.
- 3.4. The following betting options are available for each match: 3-way (1,X or 2), Handicap, First Goal, 3-way / 1st half, Over/Under Goals and Correct Score.

The Player can switch freely between the 8 available games per match day or alternatively just follow their desired match completely. The games are broadcasted in a so-called Highlight-Mode.
- 4.2. The match simulations are created through a combination of Artificial Intelligence and independent random number generators. Simultaneously, the performance parameters of the VFL Players are based on professional football Players (E.G in terms of number of goals, fitness, consecutive match-statistics etc).
- 4.3. An overview of all available betting types The Virtual Football League can offer the following types of bets:  
1X2 (Home, Draw or Away)  
Handicap (1:0 or 0:1)  
Over/Under 2.5 Goals  
Half-Time Result  
Correct Score
- 4.4. Below, you will find the individual types of bets described in detail. To access the special bets for each individual game, simply click on the Betting Program for the Virtual Football League and you will find it on the right hand side under the „+“ link. Clicking that, will display all available bets for that game.
- 4.5. With the 1X2-bet, the Player has to guess the correct outcome of the match. When selecting the outcome, „1“ is for a Home-win, „X“ is for a Draw and „2“ is for the Away team to win.

### 5. Terminology

#### 5.1. Handicap

With the Handicap-bet, the Player selects the outcome of the match with one team having a fictitious goal advantage. For example, the Home team can start with a 1-0 advantage. If the Player then chooses a Handicap win for the Home team, the team has to either draw or win. If instead the selection is an „X“, the Away-team has to score one more goal than the Home team (E.G. 2:1, 1:0 or 4:3) in order for the Player to win. If the bet is a „2“, that the Away-team will win when the Home team has a Handicap start, then the Away-Team must win with at least two more goals than the Home Team in order for it to be a winning bet.

#### 5.2. Over/Under 2.5 Goals

The Over/Under-bet allows the Player to bet on the total amount of goals. By default, it is set to Over or Under 2.5 Goals. In order to win an „Over 2.5 Goals“ bet, there needs to be at least a total of three goals in the game (E.G. 2:1, 4:2, 3:0). To win an „Under 2.5 Goals“ bet, there cannot be more than a total of two goals at the end of the game. (E.G. 1:1, 0:2, 0:0).

#### **5.3. Half-time Result**

The Half-time result bet is similar to the standard 1,X,2 bet, in the sense that the Player has to choose either 1, X, or 2 for the result of the 1st Half. So, for example, if the Player chooses 1, or the Home-Team to win the 1st Half, then the Home Team has to lead by at least one goal before the whistle blows for Half-Time. This bet does include the injury time that is added onto the original 45 minutes.

#### **5.4. Correct Result**

With the Correct Result bet, the final result has to be correctly guessed. To win the bet, the predicted result has to be the final result. If the Player predicts a 2-0 win, then the end result has to be 2-0 after 90' minutes, otherwise it is a losing bet.

## **S. Cashout Rules**

Version 1 – last update on 02nd of December, 2022

With a Cashout you can withdraw funds before a bet has reached its inevitable conclusion without having to wait. You have the opportunity to track your selections and cash out at a point in time of your choosing. When this feature is available you can cash out a bet in its entirety.

In order to cash out, the feature must be available and show a Cashout amount for your bet. There may be a time delay in processing a Cashout request. If a price changes or a market is suspended then the Cashout request may not be successful.

A Cashout is available on selected events, fixtures and markets, both pre-match and in-play. Also on single bets, straight bets and multiple (accumulator, parlay) bets, for a variety of sports events including football, tennis, cricket and basketball. On such events, only a full Cashout, of the initial bet amount, is available.

Betmaster cannot guarantee that the Cashout feature will be available on your bet selection. Where a pre-event Cashout is available and we do not cover or we stop covering the event in-play, then a cash out will be unavailable once the event starts or when in-play coverage stops.

Should you wish to cash out, all you need to do is click on the “Cashout” button located below your selection(s). Once you request a Cashout, this is only understood to mean a full and complete Cashout of your initial bet amount - not a Cashout of partial amounts. This amount will be settled and the final result relating to your bet will have no impact on the amount returned to your account.

The amount offered will depend on the performance of your selection(s) and may be higher or lower than your original stake, enabling you to guarantee a profit or minimise a potential loss.

### **Terms and Conditions**

1. A Cashout is available on selected events, fixtures and markets both pre-match and in-play, on single and multiple bets.
2. A time delay in accepting a Cashout request is in place. If a price changes or a market is suspended then the Cashout request may not be successful.
3. If the cash out request is successful, this will be displayed and the bet will be settled immediately. The actual final result of the original bet will have no impact on the Cashout amount. Where a bet has been cashed out before the event commences and the original stake is returned in full, the original bet will be treated as void.
4. The Cashout amount offered at any time is the total amount that will be returned to your account if the Cashout request is successful.
5. Cashout betting is not available with one or more active bonuses. Cashed Out bets do not count toward wagering release of your Bonuses.
6. Betmaster reserves the right to remove all or part of the Cashout feature for any customer or group of customers where it has reasonable grounds to believe that the customer or group of customers is misusing (e.g. in the case of fraudulent activities) the Cashout option, by frequently using the feature to take advantage of pre-event price movements and closing their bets through the Cashout feature before the event has started.
7. Betmaster will not be responsible if the Cashout feature is not available for technical reasons and bets will stand as originally placed during any such period.
8. Betmaster cannot guarantee that the cash out feature will be available on your bet selection. Where a Cashout is available pre-event and we do not cover or we stop covering the event in-play, then a Cashout will be unavailable once the event starts or when our in-play coverage stops. A Cashout will not be available when a market is suspended.
9. Betmaster reserves the right to accept or decline any bet requested for any sports, competition, market or bet type that is included in the Cashout feature.
10. Betmaster reserves the right to amend, suspend or remove the Cashout feature (or any part of it) at any time for any event, fixture, market or customer. Any bets placed on such events, fixtures or markets will stand as originally placed.
11. Betmaster reserves the right to reverse the settlement of a Cashout if the bet or a market is settled in error.
12. Some Betmaster offers will not be applied where the Cashout feature has been used to close all or part of a bet. See Terms and Conditions for each offer for details.
13. If you have opted for self-exclusion on Sports betting, you will not be eligible to perform a Cashout.
14. If you have opted for a cooling-off period on non-Sports betting activities, you are entitled to cash out while the aforementioned period is still active. If, however, your cooling-off period directly involves Sports betting, cashing out will not be possible until the cooling-off period has ended.
15. If you have set a deposit limit, you are entitled to perform a Cashout.
16. The Cashout feature is only applicable to the Sports section.
17. Once you have requested a cashout, a cancellation is not possible.
18. Cancellations are not applicable to Free Bets and, accordingly, the option isn't offered.
19. Once you request a Cashout, this is only understood to mean a full and complete Cashout of your initial bet amount - not a Cashout of partial amounts.
